

EPSON[®]
EXCEED YOUR VISION

EMP-400W

Enjoy interactive teaching with
the latest ultra-short throw projector

The Epson EMP-400W is ideal for use in interactive teaching with whiteboards. Easy to use and flexible, this projector allows wide screen presentations with a short projection distance.

Enjoy multimedia at its best and improve interactivity with your students.

Perfect for use with interactive whiteboards

The Epson EMP-400W is perfectly suited for installation with interactive whiteboards. With digital whiteboards teachers can capture notes and instantly save, publish, print and email. Teachers can improve interactivity with students.

Projecting with virtually no shadows

Take advantage of maximum space for teachers and students. Easy to install and to monitor, this ultra-short throw projector is able to display a sharp focused 60-inch picture from a distance of just 65 cm from the projection surface, virtually eliminating shadow effects caused by people and objects in front of the screen.

Easy maintenance with network monitoring and control

The Epson EMP Monitor™ software enables you to remotely configure and operate the projector over your network. You can even set an e-mail alert for the internal temperature of your projector, or to monitor lamp status, in order to prevent any possible problems disrupting your presentations.

Environmentally friendly

The Epson EMP-400W is designed and produced in line with Epson's environmental efforts. It allows you to display a screen of up to 110 inches and consumes much less power than large flat panel televisions. This allows you to save both energy and costs.

This projector also boasts an improved lamp life, a sleep timer function, paint-free design and recyclable packaging.

- Minimise power consumption when not in use thanks to timer functions and rapid power on/off.
- Reduce pollution: the packaging is 100% recyclable and our projectors are manufactured without any paint.
- Enjoy clear visibility even in light meeting rooms with our E-TORL Lamp. Save money and energy, our low-wattage lamps last up to 4,000 hours.

Multimedia capabilities, secured, cost efficient – ideal for classrooms

- Ultra-short throw lens, only a small distance to the screen is necessary to project powerful images. This eliminates shadow effects and allows more space for the teacher and students.
- Project a wide-screen image, perfect for use with any laptop or with a DVD player.
- Improved security with the inclusion of a tough security bar, Kensington lock connectivity and password protection.
- Bright, colourful images with Epson 3LCD technology.
- Exclusive E-TORL lamp. Save money and energy with Epson's exclusive E-TORL lamp technology. These low-wattage lamps combine very high brightness with ultra-low power consumption.
- Easy maintenance with network monitoring and control. The EMP-400W enables teachers and IT support staff to monitor and control the projector simply by entering its IP address into the Epson EMP Monitor™ software.

Powerful built-in 10W speakers play any audio or video to your audience, without external speakers.

Ultra-short throw lens only a small distance is required between the projector and the screen. Thanks to the ultra-short throw projector, your presentation is virtually shadow free.

Easy maintenance with the Easy-Grab air filter and simple lamp change.
