iPad

3LCD Technology

For Quality and Color That's Beyond Amazing

Whether it's used for big-screen entertainment or amazing presentations, 3LCD technology takes video performance to the next level.

Amazing Color

Due to its certified 3-chip design, 3LCD technology delivers clear and vibrant images so true to life, you may not believe your eyes.

Road-tested Reliability

3LCD technology has been the world's leading projection technology for 20 years and has consistently been the choice for users who demand long-life performance and reliability.

Energy-efficient Light Engine

The 3LCD light engine efficiently uses available lamp light to create stunning images. In contrast to 1-chip DLP technology, 3LCD requires 25% less electricity per lumen of brightness.³
