# Easy-To-Use All-In-One Solution for All Home and Home Office Digital Imaging Needs

*An incredibly versatile multi functional printer that meets the printing, scanning and copying needs of the home and home office user. The EPSON STYLUS™ CX3100 has been designed and built to exploit EPSON's leadership in digital imaging and colour printing technologies. If you are looking for a compact, easy to use all-in-one scanner, printer and colour copier then the EPSON STYLUS™ CX3100 is an ideal and inexpensive all-in-one solution for:*

- Printing – colour printing at resolutions up to 5760 Optimised DPI (using Resolution Performance Management Technology) and up to 14ppm\*<sup>1</sup> (Black text (Memo) A4); and featuring EPSON's Intellidige™ Ink System
- Standalone – full colour copier capabilities with features equal to most photocopier machines
- Scanning – 48-bit colour depth scanning at resolutions up to 600dpi x 1200 optical resolution and with full A4-size (216 x 297 mm) size capability
- Faxing – using your existing PC & modem take full advantage of your existing fax software

# Printer

Whether printing documents and photographs from your computer or in standalone copy mode, the EPSON STYLUS™ CX3100's printing technologies will deliver the outstanding print quality that you get only from the recognised world leader in colour inkjet printing.

## Print at up to 14ppm\*1

With a document print speed of up to 14 pages per minute\*1 (Black text (Memo) A4), the STYLUS™ CX3100 output rate is impressive. This performance has been achieved by incorporating many of the unique and leading-edge EPSON printing technologies that are found in EPSON's highly acclaimed range of STYLUS™ inkjet printers.

## EPSON Genuine Papers

EPSON has Genuine media that meets every need of the STYLUS™ CX3100. EPSON's comprehensive range of photographic, general purpose and specialty media have all been designed specifically to optimise the print quality that can only be achieved with EPSON print technologies and genuine EPSON inks.

## Photo Manipulation Software

**EPSON PhotoQuicker 3.2:** An extremely easy to use yet highly versatile program designed to help you take full advantage of the photograph printing capabilities of the STYLUS™ CX3100. Incorporating photograph layout, management and printing functions, PhotoQuicker's intuitive interface makes it easy to maximise the quality of your photo prints.

**Arcsoft Photo Impression 4:** An integrated application that includes features such as: instant removal of flash-induced red-eye; easy adjustment of brightness, contrast, hue, saturation, sharpness and tone; one-click application of over 35 special effects; and a wide range of touch-up tools.

**Adobe Acrobat Reader 5.0:** With this world-wide standard software, you can view and print all Adobe Portable Document Format (PDF) files that are common across the Web and with many applications for on-line documentation.

## The EPSON Intellidge™ Ink System

Only EPSON printers feature the EPSON Intellidge™ Ink System, which:

- Is designed to work perfectly in harmony with the printer and your choice of media to ensure you get the very best of print quality and trouble-free, peace-of-mind printing every print, every time.
- Allows you to swap cartridges. You can use full cartridges for continuous large print jobs whilst partly used cartridges can be used for other smaller jobs – maximum ink usage, maximum benefits.
- Gives you easy-to-see, always available and accurate information about all your ink levels.

## EPSON PerfectPicture Imaging System

Only EPSON printers have the unique combination of technologies that combine to deliver the EPSON PerfectPicture Imaging System. At the heart of the System is the MicroPiezo™ print head technology, delivering super fast ejection of incredibly minute and accurately formed ink droplets.

## EPSON Status Monitor 3

Its graphic display of ink levels combined with an estimation of pages that can be printed with the remaining ink is an invaluable tool for uninterrupted printing. Status Monitor 3 even provides detailed instructions on cartridge replacement and immediate access to the on-line STYLUS™ CX3100 Problem Solver manual.

# Scanner

EPSON's long-standing reputation in scanning technologies and solutions is evidenced in the powerful scanning capabilities of the STYLUS™ CX3100. From scanning documents for OCR (Optical Character Recognition) or for faxing, to printing photographs or displaying them on the Web, the STYLUS™ CX3100 has the power and versatility to meet all your scanning needs.

## Scan at up to 600dpi

By combining scanning-specific hardware and software technologies, EPSON has ensured the STYLUS™ CX3100 has the scanning resolution and 48-bit colour depth (internal) to deliver outstanding scanning results.

## CCD Technology

It takes the best technologies to achieve the best scanning results, and the use of CCD (Charge-Coupled Device) technology in the STYLUS™ CX3100 is further evidence of EPSON's commitment to providing users with the very best.

## Maximising Scan Size

From the smallest of photographs right up to full A4-sized (216 x 297 mm) photos and documents, the STYLUS™ CX3100 has the scanning width capabilities that guarantee maximum flexibility for every application.

## EPSON Smart Panel

The EPSON Smart Panel software is your easy and direct means of accessing all the scanning functionality and power of the STYLUS™ CX3100. Single-click access to the integrated and powerful scanning tools that include:

- *Scan To Web*
- *Photo Print*
- *Scan for Creativity*
- *Scan to File*
- *Scan to OCR (Optical Character Recognition)*
- *Scan to E-mail*
- *Scan to Application*
- *Copy to Fax*

## EPSON TWAIN 5

This versatile and better than ever driver provides photographic scans with vivid colours, and features advances such as reduced noise in shadow area and automatic removal of colour cast. It also supports Windows ICM and Macintosh colour management systems for consistent colour matching between printers, monitors and scanners.

# Colour copier

In keeping with EPSON's major innovations in standalone digital imaging, the STYLUS™ CX3100 provides exceptional performance and functionality. It even allows you to copy documents without the need for a computer connection.

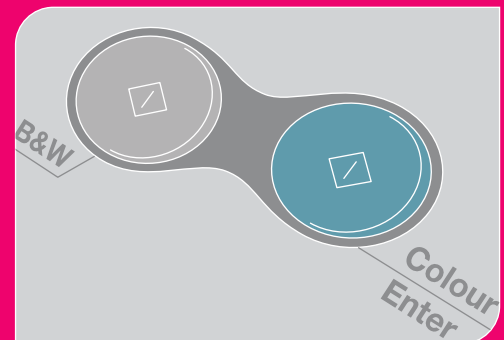

## *Standalone Control Panel*

With a minimum number of buttons and a LCD panel, the STYLUS™ CX3100 control panel provides you with colour copier flexibility that easily rivals that of many dedicated A4 photocopiers.

## *Standalone Versatility*

The versatility of the EPSON STYLUS™ CX3100 is in full evidence even in standalone mode. Imagine having the all-in-one solution that makes creating your own high-quality full colour copies of A4 leaflets as simple as the press of a button.

## *Point-And-Click*

For computer-based copying, the STYLUS™ CX3100 comes complete with the EPSON Copy software that provides advanced photocopy machine functions. The software's interface has even been designed to mimic the useability of the traditional photocopier control panel.

## *BorderFree Printing*

EPSON's recent advances in true BorderFree, edge-to-edge printing are one of the STYLUS™ CX3100's outstanding features. Forget about downsizing A4 scans to meet any restrictive and annoying border limitations. With BorderFree printing, your A4 document or photo scan is printed exactly as you want it – edge-to-edge for that professional touch.
