

EPSON STYLUS™ COLOR 1160

Inkjet printer

A3+ Photo Quality inkjet for business and professional graphics users

1440
DPI
MAXIMUM RESOLUTION

The new EPSON STYLUS COLOR 1160 is a revolutionary printer targeted at business and professional graphics users wanting maximum colour output combined with speed, affordability and the versatility of printing larger than A3.

It's industry-leading print resolution of up to 1440 dpi and high-speed printing capability makes the EPSON STYLUS COLOR 1160 the ideal printer for busy professionals. What's more, its ability to produce outstanding 1440 x 720 dpi printouts on plain paper allows eye-catching colour charts and graphics to be included in all printed material.

The EPSON STYLUS COLOR 1160 comes with EPSON's PerfectPicture Imaging System and features 4pl (picolitre) Ultra Micro Dot printing. This means when colour images are printed the ink droplet visibility is reduced and makes it difficult for the human eye to tell the difference between a printed copy or a photograph.

It also features EPSON's Advanced Variable-Sized Droplet technology which uses larger dot sizes for solid colours and smaller dot sizes for gradations and blends. Advanced Variable-Sized Droplet technology now features bi-directional printing. This means the printer can 'lay down' different dot sizes in two passes instead of one, increasing the print speed.

An improved new user interface with a full function on-screen Status Monitor makes it easy to check ink levels and paper availability at a glance. The EPSON

PhotoEnhance™ 4 function automatically adjusts colour and exposure levels with a single click of a button.

The driver software and PhotoEnhance 4 image adjustment gives customers complete control over how documents print. Customers can choose 2-up or 4-up print layouts. It also lets customers insert watermarks and specify their colour and position on the page – an important feature for business documents.

EPSON's AcuPhoto Halftoning technology has been enhanced to improve the reproduction of subtle detail and expression of tones in an image. This means when printing dark areas of an image the total range from highlight to dark areas is much more smoothly reproduced.

The EPSON STYLUS COLOR 1160 supports Windows and Macintosh operating systems. It has parallel and USB (Universal Serial Bus) ports. This means that set up is fast and easy, and cables can be hot-swapped without powering down the computer.

The EPSON STYLUS COLOR 1160 is a smart business investment that delivers the speeds demanded by business, the quality required for professional colour applications and the affordability and operating economy important to personal users.

EPSON STYLUS[®] COLOR 1160 product specifications

Printing method	On-demand inkjet (piezoelectric)
Nozzle configuration	144 nozzles (Black) 48 x 3 nozzles (Cyan, Magenta, Yellow)
Print direction	Bi-directional with logic seeking
Resolution	1440 x 720 dpi
Paper Handling	
Paper Feed Method	Friction feed with paper feeder
Paper Hold Capacity	
Plain paper	100 sheets
Photo quality inkjet paper	65 sheets
Photo quality glossy paper	20 sheets
Photo paper	20 sheets
Photo quality glossy film	30 sheets
Transparencies	10 sheets
Envelopes	10 envelopes
Photo quality inkjet card	30 cards
Paper sizes	A3+, A3, A4, Letter, B5, Legal, Envelope (No.10, DL, C6), A6 Index card, Photo paper (6 x 4")
Paper Thickness	0.08 mm - 0.11 mm (paper) Less than 0.43 mm (envelope)
Input data buffer	256 Kbytes
Interface	Centronics®-type 8-bit parallel interface (IEEE-1284 nibble mode) USB Interface
Ink cartridge	
Black ink cartridge	(S020189)
Type	Exclusive cartridge
Colour	Black
Print capacity	Up to 900 pages: 3.5% ECMA (ISO 10561), text @ 360 dpi (S020191)
Colour ink cartridge	
Type	Exclusive cartridge

Colour	Cyan, Magenta, Yellow
Print capacity	Up to 300 pages 5% each CMY (total 15% coverage)
Control panel	
Functions	Power on/off, Load/Eject, Cleaning (Black), Cleaning (Colour)
Indicators	Power, Paper Out, Ink Out (Black), Ink Out (Colour)
Reliability	
Total print volume	75,000 pages (A4, text)
Environmental conditions (operating)	
Temperature	10° to 35° C
Humidity	20% to 80% RH (without condensation)
Electrical specifications	
Voltage	AC 220 to 240V
Rated frequency	50 to 60 Hz
Power consumption	Approximately 14W (Self test in LQ 10 cpi)
Dimensions (storage)	
Width	475 mm
Depth	274 mm
Height	177 mm
Weight	6.5 kg (excluding ink cartridges)
Printer Drivers	
Operating System	Macintosh® (QuickDraw) Microsoft® Windows™ 95/98/NT Version 4.0 Microsoft® Windows™ Version 3.1/3.11 (Does not support MS DOS)
Warranty	12 months return to base
Additional Warranty	3 year warranty option
